

# ENRICHMENT NEWS

Dear Enrichment Families,

We had a great week in Enrichment! We read *How to Trap A Leprechaun* by Sue Fliess. Afterwards, the children had lots of fun designing and creating Leprechaun traps using containers of all shapes and sizes. They made colorful and shiny traps with the help of other materials to be sure and attract the leprechauns. There were lots of rainbows and gold glitter.

We read *The Gingerbread Man* and *the Leprechaun Loose at School* by Laura Murray. The children loved following the leprechaun clues around the school as the gingerbread man tried to catch him. We continued making leprechaun traps. We also played a rainbow counting game. The children took turns rolling the dice and counting their way across the rainbow to the pot of gold. We also had lots of fun playing with leprechaun slime.

After a few of our blustery, windy days we decided to read *The Wind*. In this wordless picture book, we watched as a little mouse almost got blown off the page of the book by the wind. He noticed all the birds, airplanes, helicopters, hot air balloons, and parachuters flying in the windy sky and created a windmill to join them. We began the spring season by making and decorating kites.

We hope everyone has a great Spring Break!

Susan and Caroline
